True or False: How you seat guests at your table has more to do with politics than social etiquette. <i>True</i>	Be the first to bring the Host the letter 'T'.	Michael's mother has told him that if he ever makes her mad, he'll receive 30 lashes. Michael has lost his mother's favorite necklace, and as a result is being lashed. She lashes him twice and says "one," she lashes him twice more and says "two." She keeps counting in this manner. How many lashes is Michael really going to receive? <i>60 lashes</i>
Which came first: the spoon or the fork? <i>The fork</i>	List 5 articles of clothing that start with the letter 'S'. <i>shirt, sweater, socks, shorts, skirts, scarf, slacks</i>	Jonathon has a big bushel of carrots he's taking to the morning market. He starts with 450 carrots. By the end of the day he has 212. How many did he sell? <i>238 carrots</i>
What does the latin word "villa" mean: chair, castle, house, or village? <i>house</i>	Spell 'bonsai,' as in a bonsai tree.	An amphitheater has 25 rows of seats with 20 seats in each row. How many seats are there in total? <i>500 seats</i>
What does the latin word "semper" mean: sometimes, rarely, never, or always? <i>always</i>	Spell 'carafe,' as in a half-carafe of wine.	The plague hits your kingdom! There are 2300 peasants in the nearest village. You can welcome 500 into the walls of the palace, where they'll be safe from the sickness. Half of the remaining peasants will die. How many dead will there be? <i>900 dead people</i>
What does the latin word "legit" mean: write, read, spell, or count? <i>spell</i>	Each complete sentence has a subject and a(n): adjective, predicate, adverb, or prepositional phrase. <i>predicate</i>	Olivia has 42 apples. Carlos wants 16. Olivia will only give him half of what she has left, after giving Amelia the 18 she promised her. How many will Olivia have left? <i>12 apples</i>
What does the latin word "scelestus" mean: soft, caring, wicked, or clumsy? <i>wicked</i>	Which of the following is a verb in its infinitive form: run, running, to run, or ran? <i>to run</i>	A ship moves from one place to another at a distance of 90 miles. It sails daily twenty miles but is driven back five miles daily by the wind. In how many days will it reach this place? <i>6 days</i>
What does the latin word "equus" mean: cat, horse, dog, or fish? <i>horse</i>	Adrianna has 10 horse stalls to clean. She can only clean stalls when the horses are taken out to ride. She starts with the 3 empty stalls, then takes a break. 2 riders return their horses and five more are taken out. Adrianna cleans the empty stalls. How many stalls are left for her to clean? <i>2 stalls</i>	Joseph has 10 goats and 9 pigs. Goats weigh 20 lbs and pigs weigh 5 lbs. If Joseph's wagon can carry a load of 65 lbs, and Joseph is taking 7 pigs with him to the market, how many goats can Joseph fit in the wagon? <i>3 goats</i>
Spell 'unequivocal,' as in an unequivocal answer.	A baker prepares loaves of bread for a feast. 120 pumpernickel, 300 wheat, and 45 poppy seed loaves. How many did he make? <i>465 loaves</i>	A messenger is traveling from the East City to the West City, a total distance of 130 miles, moving at 12 miles per day. How many days will it take him to reach his destination if, halfway through, he falls into a river and is carried 14 miles back the way he came? <i>12 days</i>
